

QUALITY ASSURANCE LAB BY ALL-PRO FASTENERS™

IT ONLY STARTS WITH NUTS & BOLTS™

At All-Pro Fasteners, we know what it takes to provide the highest level of service and professional-grade products for all industries. With our on-site Quality Assurance Lab with A2LA accreditation, the experts at APF ensure the products we manufacture, stock and distribute meet customer demands and strict quality requirements. The scope and operation of our quality management system means customers can have complete confidence when purchasing any critical application and safety-related products.

ALL-PRO CAPABILITIES

APF strives to go above and beyond the industry standards for quality assurance and dependability. The APF Quality Management System is regulated by both the ISO 9001 and API Q1 requirements. Along with our committee association with ASTM, ASME, API, and other consensus standard organizations, our Quality Management System has allowed us to continue improving our quality performance. In addition, APF's ISO/IEC 17025 in-house accredited laboratory, which has also assisted us in accomplishing our quality goals, provides us with a wide range of testing capabilities including:

IN-HOUSE TESTING CAPABILITIES

- Plating Thickness
- Dimensional Metrology
- Charpy Impact Testing
- Hydrogen Embrittlement
- Magnetic Permeability
- Rotational Capacity
- Fatigue Testing
- Adhesion Testing
- Bend Testing
- Mechanical Testing (Proof Load/Tensile up to 400,000 lbs.)
- Hardness (Rockwell/Brinell)
- Spectrometer Testing (P.M.I.)

QUALITY SERVICES

- Product Tear Downs (Value Analysis)
- On-Site Quality Seminars
- Application Assistance

ACCREDITED AND CERTIFIED

In order to provide the highest level of quality and service, APF takes every measure to ensure APF products meet strict standards for performance and reliability.

All-Pro has the industry accreditations that demonstrate our dedication to continuously improving our quality systems, including our ISO 9001 certification and A2LA accreditation, given in accordance with recognized International Standard ISO/IEC 17025:2005 General Requirements for the Competence of Testing and Calibration Laboratories. Lot traceability is maintained in our system from mill to finished product, and we can supply complete chemical, physical or letters of compliance upon request.

THE ALL-PRO DIFFERENCE™

All-Pro Fasteners is here to provide customers one point-of-contact, one purchase order to issue, and one supplier to count on. Our sales managers are product experts across all market segments, and our designated account managers are ready to assist you with any size order. The scope of our operations, along with our laboratory quality management system and company certifications, help ensure the higher level of product quality and service customers expect from us. With our quality assurance program, we can guarantee complete confidence when purchasing any critical application and safety-related products. That's the APF Difference.
