

## OIL & GAS PRODUCTS BY ALL-PRO FASTENERS™

### IT ONLY STARTS WITH NUTS & BOLTS™

**All-Pro Fasteners combines a range of products and services to meet the needs of the oil and gas industry, whether for upstream, midstream or downstream operations.** As the reliable, single-source supplier that supports oil and gas and petrochemical companies worldwide, All-Pro delivers the highest quality parts on time, every time. From shale fields to offshore rigs, we know what it takes to make sure valves, pipelines and processing plants are secured with trusted industry solutions that meet the consensus standards utilized worldwide.

# ALL-PRO CAPABILITIES

All-Pro has the capabilities to keep up with the ever-changing application requirements associated with oil and gas and petrochemical industries. Our facilities feature an on-site, API-certified manufacturing center with ISO 9001 certification, so customers can have complete confidence of critical application and safety-related fasteners. Supported by All-Pro's Quality Assurance Lab, which is A2LA accredited and maintains ISO 17025 certification.

## QUALITY ASSURANCE AND TESTING CAPABILITIES

APF takes every measure to ensure O&G products meet strict standards for performance and reliability. We have extensive quality assurance and testing capabilities including...

### CHARPY IMPACT TESTING

The Charpy impact test is also referred to as a Charpy V-notch test. It's specifically designed to determine the toughness, or impact strength, of metallic material in the presence of a flaw or notch, as well as in fast loading conditions. With Charpy impact testing, APF can measure the amount of energy absorbed by the material during fracture. All testing can be performed in-house in APF's fully accredited Quality Assurance Lab.

To learn more about All-Pro Quality Testing Protocol, visit our website [apf.com/apf-difference](http://apf.com/apf-difference).

### THE APF DIFFERENCE™

All-Pro Fasteners is here to provide customers one point-of-contact, one purchase order to issue, and one supplier to count on. Our sales managers are category experts in the oil and gas market, and designated account managers assist with any size order. The scope of our operations, along with our laboratory quality management system and company certifications, help ensure the higher level of product quality and service customers expect from us. With our quality assurance program, we can guarantee complete confidence when purchasing any critical application and safety-related products. That's the APF Difference.
