## DISTRIBUTION

All-Pro Fasteners™ (APF) can be your single-source provider of quality fasteners and related products, providing everything from the nuts and bolts to industrial supplies. We help our customers reduce costs, minimize waste, and simplify the supply chain process, and have the resources to reliably deliver professional-grade products for any job. With the support of global product partners and expanded express and ground shipping capabilities, APF keeps distribution services on time, and within budget.

## MANUFACTURING

Our on-site manufacturing, All-Pro Threaded Products™, is ISO 9001, API Q1. It also holds the America Petroleum Institute API 20F-002 and API 20E-0016 Monogram Licenses to manufacture API 20E BSL-1, BSL-2, BSL-3 bolting. Having these certifications gives our customers confidence in their critical application and safety-related fasteners. That confidence, along with our ability to turn critical quality parts in a timely manner, means they can count on us for all specially manufactured parts, forged or machined. APF's wide range of standard, per-print custom, and non-standard products (imperial or metric) are all built to exact specifications.

- Hot Forge Presses and Upsetters
- Rolled and Cut Threading Machines
- CNC Lathes & Mills
- Benders
- Multi-Spindle Screw Machines

## PRODUCT SUPPORT

APF provides customers with additional product support options to handle all project requirements.

- Engineering Support
- Parts Consolidation
- Design Assistance for New Products
- Lunch & Learn Training
- Alternative Product Recommendations
- Cost Savings Proposals

## VMI

With an industry-proven and systematic approach for controlling and managing inventory, we help streamline your company's overall operations. Our Vendor Managed Inventory (VMI) services offer customers effective supply chain solutions by monitoring inventory accuracy, maintaining optimal stock levels and reorder points, and more.

- Consignment Inventory Solutions
- Point-of-Use Delivery
- Summary Billing
- Custom Labeling
- In-Plant Storerooms
- Barcoding per Customer Spec
- Stock & Release
- Scan-to-Order
- Customer P/N Cross Reference
- Paperless Reordering
- Consolidated Invoicing
- Electronic Packing Slip
- Electronic Invoicing
- Electronic Funds Transfer
- Custom Designed Sales and Usage Reports

## STRATEGIC SOURCING

APF is partnered with key domestic and global suppliers to provide a steady supply of bottlenecked items and other products. Our experts specialize in determining on-time, on-budget purchasing and supply chain management solutions our customers can count on. APF's strategic sourcing process involves analyzing the supplier market, identifying and integrating quality suppliers into a business plan, and monitoring performance.

## QUALITY ASSURANCE

APF goes above and beyond industry standards of quality and dependability. Our certified quality management system is regulated by both ISO 9001 & API Q1 requirements. We also benefit from committee association with ASTM, ASME, API, and other consensus standard organizations. Our in-house ISO/IEC 17025 accredited laboratory also assists us in accomplishing our goals with testing capabilities that include:

- Plating Thickness
- Dimensional Metrology
- Charpy Impact Testing
- Hydrogen Embrittlement
- Magnetic Permeability
- Rotational Capacity
- Fatigue Testing
- Adhesion Testing
- Bend Testing
- Mechanical Testing (Proof Load/Tensile up to 400,000 lbs.)
- Hardness (Rockwell/Brinell)
- Spectrometer Testing (P.M.I.)
